

## **SCOPES: Overhead contribution**

### **Generally**

Until now, projects funded in the framework of funding instruments concerning international cooperation, indirect costs (overhead) were excluded.

### **Swiss partners**

The Swiss side cannot apply for overhead costs.

### **Eastern European partners**

#### **Joint Research Projects**

Partners in Eastern Europe may apply for a maximum of 10% of their budget for overhead costs. The amount received must be confirmed by the relevant institution (using the appropriate form).

#### **Institutional Partnerships**

No overhead costs are allowed, because it is expected that the Eastern European institutions also contribute to the support of the institutional capacity building.
