

Marie Heim-Vögtlin: List of Recipients

MHV: call for applications 2016 (42 awarded grants)

Name	First Name	Status	Host institution	Discipline	Project title
Akré	Christina	Postdoc	Université de Lausanne	Medico-Social Problems of Youth	Children's At Home: A social media website for peer support during transition for parents of adolescents with chronic conditions
Amsler	Monika	Doctoral candidate	Universität Zürich	Religious studies, Theology	Purpose and Nature of the Talmudic Medical Units in Tractates Shabbat, Pessachin, Gittin and Avodah Zarah
Babouee Flury	Baharak	Postdoc	Universität Bern	Medical Microbiology	Clinical Impact and Evolution of AmpC Producers under Selective Pressure of Different Antimicrobials: a Molecular Analysis to Predict Risk Factors for Cephalosporin Resistance and to Evaluate the Best Antibiotic Treatment Strategy
Balmer	Maria Luisa	Postdoc	Universität Basel	Immunology, Immunopathology	Reprogramming of acetate metabolism in CD8+ T cells during re-call responses
Bhattacharyya	Anwasha	Postdoc	Universität Bern	Neurophysiology and Brain Research	The downstream ipRGC thalamocortical visual pathway and its potential role in movement detection
Bounik	Raziyeh	Doctoral candidate	ETH Zürich	Microelectronics. Optoelectronics	Integration of CMOS sensors and circuits into microphysiological hanging-drop networks
Cacault	María Paula	Postdoc	Université de Genève	Economics	Inference with Sparse Clustering: validity, robustness and applications of the sparse-cluster variance estimator
Castro Pareja	Paula Monica	Postdoc	Universität Zürich	Political science	Regime design and international cooperation: The role of differential treatment in multilateral environmental agreements
Ciobanu	Ruxandra Oana	Postdoc	Université de Genève	Sociology	Vulnerability in Old Age: A Comparative Approach

Name	First Name	Status	Host institution	Discipline	Project title
Dikovic	Jovana	Doctoral candidate	Universität Zürich	Ethnology	Post-socialist rural development and peasantry in Serbia
Doyon	Julie	Postdoc	Université de Fribourg	General history (without pre-and early history)	Du droit des familles au droit de la famille. Construire la parenté dans la justice civile et criminelle (France, XVIIIe-XIXe siècles)
Elsner	Anna Magdalena	Postdoc	Universität Zürich	Romance languages and literature	Palliative Pages: Inscribing Mortality into French Literature and Theory since 1950
Genescà Francitorra	Meritxell	Postdoc	Universität Zürich	Mechanical Engineering	Study of the middle-ear ossicular bending in different species
Hempel	Antje	Postdoc	Universität Basel	Experimental Microbiology	Structural and functional analysis of a conserved second messenger-stimulated phosphorelay driving cell cycle progression and cell morphogenesis in alpha-proteobacteria
Hollis	Fiona	Postdoc	Université de Lausanne	Neurophysiology and Brain Research	The effects of maternal stress on autism spectrum disorders in a genetic mouse model: dissecting the gene-environment interaction
Kim	Mee Rahn	Postdoc	ETH Zürich	Material Sciences	Microwave-assisted synthesis of colloidal copper sulfide nanostructures for lithium ion battery applications
Klein	Kerstin	Postdoc	Universität Zürich	Physiology : other topics	The role of the bromodomain proteins in arthritis susceptibility and synovial biology
Kralt	Annemarie	Postdoc	ETH Zürich	Molecular Biology	Nuclear pore complex insertion into the intact nuclear envelope
Kremer	Katrina	Postdoc	ETH Zürich	Geology	Lake sediments as archive of paleoearthquakes in Switzerland
Kühnert	Denise	Postdoc	Universität Zürich	Infectious Diseases	Phylogenetic models for the analysis of epidemic outbreaks – from fast evolving viruses to bacteria causing nosocomial infections
Lienhard	Marina Lucia	Doctoral candidate	Universität Zürich	General history (without pre-and early history)	"A family-borne disease". Schizophrenie und Familie als Forschungszusammenhang, 1948–1983
Mäder	Marie-Therese	Postdoc	Universität Basel	Religious studies, Theology	Mormons in Documentary Media. Religion in Spaces of Communication

Name	First Name	Status	Host institution	Discipline	Project title
Mahbubani	Rakhi Nandalal	Postdoc	EPF Lausanne	Particle Physics	Naturalness and Post-Naturalness Physics at the LHC and Beyond
Maillard	Anne	Postdoc	Université de Lausanne	Neurology, Psychiatry	Emergence of cognitive and brain structure alterations in carriers of an autism genetic risk factor at the 16p11.2 locus
Majerotto	Elisabetta	Postdoc	Université de Genève	Theoretical Physics	Signatures of deviations from the Standard Cosmological Model with future observations
Massaccesi	Annalisa	Postdoc	Universität Zürich	Mathematics	CuMiN
Murd	Carolina	Postdoc	Universität Zürich	Psychology	Causal contributions of frontal eye fields to perceptual decision formation
Naef	Maja	Postdoc	Universität Basel	Visual arts and Art history	Porträt, Freundschaft und Kollektiv im Experimentalfilm
Pardo	Ainhoa	Postdoc	EMPA	Material Sciences	Lifetime prediction of coated implants: study of time and loading dependent local deterioration mechanisms at interfaces and critical degrading effects
Pellandini-Simanyi	Lena	Postdoc	Università della Svizzera italiana	Sociology	Driving forces of the financialization of everyday life
Ponte	Belen	Postdoc	Université de Genève	Internal Medicine	Age-related renal function decline: a comprehensive study using metabolomic analysis
Prochenko	Katarzyna	Doctoral candidate	Universität Zürich	Ancient history and Classical studies	Le Sentenze pitagoriche - analisi e commento al testo
Reichert	Carolin Franziska	Postdoc	Universität Basel	Psychology	Caffeine-induced effects on sleep, cognitive performance, and underlying cerebral correlates during adolescence
Ronchi	Roberta	Postdoc	Université de Genève	Neurology, Psychiatry	Unawareness of neurological disease: explicit and implicit measures, brain correlates, and recovery of awareness
Savic	Natasa	Postdoc	ETH Zürich	Biomedical Engineering	Towards Therapeutic CRISPR/Cas9 Genome Editing
Schläger	Regina	Postdoc	Universität Basel	Neurology, Psychiatry	Brainstem atrophy in Multiple Sclerosis

Name	First Name	Status	Host institution	Discipline	Project title
Shafiq	Aysha	Doctoral candidate	Graduate Institute of International and Development Studies (IHEID)	General history (without pre-and early history)	Agricultural Change and Family Farming in West Punjab 1886-1947
Suter-Meyer	Katharina	Doctoral candidate	Universität Basel	Ancient history and Classical studies	Geographie als humanistische Wissensliteratur - Vadians Kommentar zu Pomponius Mela
Tischler	Julia	Postdoc	EPF Lausanne	Cellular Biology, Cytology	Engineering Cell Fate through Metabolic Reprogramming
Trost	Wiebke	Postdoc	Universität Zürich	Psychology	Music- and rhythm-based rehabilitation training as a benefit for patients with unilateral spatial neglect
Voigt	Franka	Postdoc	Friedrich Miescher Institute for Biomedical Research (FMI)	Cellular Biology, Cytology	Quantifying gene expression noise via single mRNA imaging in living cells
Xavier da Silveira dos Santos	Aline	Postdoc	Friedrich Miescher Institute for Biomedical Research (FMI)	Cellular Biology, Cytology	Lipid metabolism in intestinal organoid formation

MHV: call for applications 2015 (39 awarded grants)

Name	First Name	Status	Host Institution	Discipline	Project Title
Adrian-Kalchhauser	Irene	Postdoc	Universität Basel	Genetics	Chromatin landscape variability in an adapting wild vertebrate species
Ammann	Carole	Doctoral candidate	Universität Basel	Ethnology	Women's Political Articulations in a Guinean Town
Attanasio	Catia	Postdoc	Université de Lausanne	Genetics	Genomics views of non-coding regulation during craniofacial development
Banach	Ewa	Doctoral candidate	Université de Genève	Physical Chemistry	Enabling the Synthesis of Monodispersed Thiol-Protected Cobalt Nanoclusters for Optical and Magneto-Chiral Applications
Bories	Anne-Sophie	Postdoc	Universität Basel	Romance languages and literature	Métrique et vers libre: approche interdisciplinaire d'une forme poétique

Name	First Name	Status	Host Institution	Discipline	Project Title
Burg	Gaëlle	Postdoc	Universität Basel	Romance languages and literature	L'idéal chevaleresque à l'épreuve du transfert culturel : l'édition des « vieux romans » de chevalerie en France à la Renaissance
Campioni	Silvia	Postdoc	ETH Zürich	Biophysics	Molecular mechanism of a-synuclein aggregation at lipid-water interfaces
Chatterjee	Bithi	Postdoc	Universität Zürich	Immunology, Immunopathology	Examining human CD8+ T cell function in EBV infection and EBV-associated cancer in vivo
Cheloni	Giulia	Postdoc	Université de Genève	Environmental Research	United we stand divided we fall: Chlamydomonas reinhardtii strategy to endure micropollutant toxicity
Ferreira Maia	Marta	Postdoc	Universität Basel	Ecology	Evaluating near-infrared technology (NIRS) for identification of malaria infected mosquitoes as a tool for malaria control programs in sub-Saharan Africa
Flury	Sabine	Postdoc	EPF Lausanne	Hydrology, Limnology, Glaciology	Does traditional Alpine farming alter greenhouse gas emissions and C-turnover in remote mountain streams?
Franzé di Berardino	Barbara	Postdoc	Université de Lausanne	Visual arts and Art history	L'Eglise et les églises. Une iconographie des mondes grégoriens
Gal	Tom	Doctoral candidate	Université de Genève	Legal sciences	The Law of Occupation as a Normative Framework for Criminal Prosecution of Non-State Actors
Garbari	Silvia	Postdoc	Universität Zürich	Other disciplines of Environmental Sciences	From observations to environmental physics – Radiance based retrieval of vegetation parameters using combined models and MCMC
Gonçalves	Ana Filipa	Postdoc	Universität Zürich	Genetics	Renal angiomyolipoma cancer stem cells
Haack	Géraldine	Postdoc	Université de Genève	Theoretical Physics	Quantum Thermodynamics
Hegoburu	Chloé	Postdoc	Université de Lausanne	Neurophysiology and Brain Research	Les circuits oxytocinergiques impliqués dans le comportement social et la peur: différenciation du rôle de l'amygdale centrale et médiale sur un modèle d'autisme chez le rat
Hodel	Anna	Doctoral candidate	Universität Basel	Other languages and literature	Südslawische Romantiken geopoetisch. Imperiale Spuren in der Entdeckung des Nationalen

Name	First Name	Status	Host Institution	Discipline	Project Title
Horn	Andrea B.	Postdoc	Universität Zürich	Psychology	Co-sensing of couples' adjustment to a life transition in daily life: A comparison of interpersonal emotion regulation in couples with and without depression risk
Kobel	Esther	Postdoc	Universität Basel	Religious studies, Theology	Paulus als interkultureller Vermittler
Lasauskaite Schüpbach	Ruta	Postdoc	Universität Basel	Psychology	Lighting and Effort-Related Cardiovascular Response
Li	Beibei	Postdoc	Universität Bern	Botany	O-methylation of DIMBOA-Glc as a key regulator of herbivore resistance in maize and wheat
Marinari	Eliana	Postdoc	Université de Genève	Experimental Cancer Research	Identifying a genetic signature predictive of response to treatment with IMA950 peptide-based vaccine in patients with glioblastoma
Marinoni	Ilaria	Postdoc	Universität Bern	Experimental Cancer Research	Epigenetic reprogramming in the progression of pancreatic Neuro-Endocrine Tumors
Mark-Thiesen	Cassandra	Postdoc	Universität Basel	General history (without pre-and early history)	Rural Liberia in the Age of Developmentalism: Policies, Politics, Imaginations and Constraints, c. 1950 to 1980
Montagner	Sara	Postdoc	Università della Svizzera italiana	Immunology, Immunopathology	Epigenetic regulation of mast cell differentiation and function
Nagornova	Natalia	Postdoc	EPF Lausanne	Physical Chemistry	Electron-transfer induced misfolding of prion proteins studied by 2D time-resolved spectroscopy
Paddock	Elizabeth	Postdoc	ETH Zürich	Science of management	Navigating Work and Family Roles: The Dynamic Relationship Between Identities and Social Networks
Pietraszkiewicz	Agnieszka	Postdoc	Universität Bern	Psychology	The Social Perception of Leaders - Does Gender Still Matter?
Pilecka	Iwona	Postdoc	Université de Genève	Cellular Biology, Cytology	Identification and functional characterization of proteins involved in mitochondrial homeostasis
Rapisarda	Elisa	Postdoc	Paul Scherrer Institut	Particle Physics	Atomic Parity Violation investigated with muonic atoms
Reymond	Clémentine	Doctoral candidate	Universität Basel	Ancient history and Classical studies	Étude de la configuration des registres écrits dans les textes de la période amarnienne

Name	First Name	Status	Host Institution	Discipline	Project Title
Ricciardelli	Elena	Postdoc	EPF Lausanne	Astronomy, Astrophysics and Space Sciences	Galaxy evolution in Voids
Schrafl-Altarmatt	Miriam	Postdoc	ETH Zürich	Neurophysiology and Brain Research	Neural mechanisms controlling bimanual movements and their alterations in different neurological diseases
Trabanelli	Sara	Postdoc	Université de Lausanne	Immunology, Immunopathology	Understanding the role of innate lymphoid cells (ILCs) in tumors: from acute promyelocytic leukemia to urologic cancers
Vandorpe	Patricia	Postdoc	Universität Basel	Archaeology	Die Bedeutung von vegetabilen Beigaben in römerzeitlichen Brandbestattungen in der Schweiz: archäobotanische Daten als Grundlage für regionale, chronologische und soziale Differenzierungen provinzialrömischer Bestattungssitten
Wilhelm	Therese	Postdoc	Université de Genève	Cellular Biology, Cytology	Consequences of replication stress during cell division
Yao	Can	Postdoc	EPF Lausanne	Electrical Engineering	Enhanced Rayleigh scattering towards low threshold random fiber laser and high resolution fiber sensing
Yudina	Zinaida	Postdoc	ETH Zürich	Biochemistry	Fus3-induced Ste5 isomerization as a trigger for E3 ligase activity of Ste5 RING domain

MHV: call for applications 2014 (36 awarded grants)

Name	First Name	Status	Host Institution	Discipline	Project Title
Beisert	Miriam	Postdoc	Universität Zürich	Psychology	Transparent, opaque or virtual: The impact of different transformation types on the understanding and mastery of tool-use actions in early childhood
Brauchli	Simone	Doctoral candidate	Universität Zürich	Educational science and Pedagogy	Elterliche Selbst- und Fremdbestimmung in der Sozialpädagogischen Familienbegleitung
Bühler	Rahel	Doctoral candidate	Universität Zürich	History in general	Vom Jugendproblem zur Problemjugend. Jugend in der Schweiz, 1945-1980

Name	First Name	Status	Host Institution	Discipline	Project Title
Chiquet	Patricia	Postdoc	Muséum d'Histoire Naturelle, Genève	Prehistory	Aux origines du pastoralisme alpin : nouvelles recherches sur les productions animales et la gestion des troupeaux dans les Alpes valaisannes et les Alpes françaises du Nord au Néolithique
Di Domenicantonio	Giulia	Postdoc	Université de Genève	Experimental Cancer Research	Novel concepts for therapy planning and for predicting cancer treatment outcome
Di Maggio	Nunzia	Postdoc	Universität Basel	Cellular Biology, Cytology	VEGF and Sema3A signaling for vascularized bone grafts
Emeliantseva Koller	Ekaterina	Postdoc	Universität Zürich	History in general	Flexibler Sozialismus der Brežnev-Ära: Menschen, Institutionen und Emotionen in der geschlossenen Stadt Severodvinsk
Essaidi-Laziosi	Manel	Postdoc	Université de Genève	Medical Microbiology	Réplication et pathogenèse des rhinovirus humains dans le contexte de co-infections avec d'autres virus respiratoires
Franklin	Michelle	Postdoc	Universität Zürich	Biomedical Engineering	FitSCI: using an inertial measurement unit to increase motivation for rehabilitation and to promote an active lifestyle in the spinal cord injury community
Goncalves	Kellie	Postdoc	Universität Bern	German and English languages and literature	The Stylistics of New Mobility: "Adventure Tourism" Discourses in Switzerland and New Zealand
Hautmann	Stefanie	Postdoc	ETH Zürich	Geophysics	Groundwater response to volcanic unrest
Hippe	Kristina	Postdoc	ETH Zürich	Geology	Multiple cosmogenic nuclides (¹⁰ Be, in situ ¹⁴ C) in sedimentary systems: Effective tracers for sediment routing and storage
Kaufmann	Lena	Doctoral candidate	Universität Zürich	Ethnology	Skills in migration: Everyday life strategies of Chinese rice farmers
Kirkpatrick	Clare	Postdoc	Université de Genève	Genetics	Chemical genetic dissection of the Pseudomonas aeruginosa cell polarity network
Kräutler	Nike	Postdoc	ETH Zürich	Immunology, Immunopathology	Evolution of virus-specific antibodies in acute and chronic infections
Lefebvre	Nathalie	Postdoc	ETH Zürich	Geology	Understanding maar-forming eruptions: An integrative approach to link surface deposits and eruption dynamics to shallow volcanic processes

Name	First Name	Status	Host Institution	Discipline	Project Title
Lussi Wolfisberg	Isabella	Doctoral candidate	Pädagogische Hochschule Zentralschweiz, Zug	Sociology	Die Bedeutung von Bildungsbiographien für die Entwicklung individueller Werte
Matos Coelho	Fernanda	Postdoc	Universität Bern	Immunology, Immunopathology	Microbial dynamics during intestinal dendritic cell sampling and immune presentation, investigated by direct imaging.
Mella-Barraco	Nathalie	Postdoc	Université de Genève	Psychology	Cerebral underpinnings of cognitive intraindividual variability in aging
Pfeiffer	Constanze	Postdoc	Universität Basel	Sociology	Influence of the transition from school to work on health promotion choices of young people in Switzerland
Raveh-Rubin	Shira	Postdoc	ETH Zürich	Meteorology	Dry Intrusions: Climatology, Dynamics and Link to extreme Weather
Reiweger	Ingrid	Postdoc	Eidg. Forschungsanstalt - WSL	Hydrology, Limnology, Glaciology	Modelling critical acoustic emission patterns prior to dry-snow slab avalanche release
Rovó	Zita	Postdoc	Université de Lausanne	Neurophysiology and Brain Research	Subcortical modulation of attentional mechanisms
Skoruppa	Katrin	Postdoc	Universität Basel	German and English languages and literature	Sprachlernmechanismen bei mehrsprachigen Kindern
Slack	Emma	Postdoc	ETH Zürich	Immunology, Immunopathology	Immunological control of the intestinal microbial ecosystem via hindrance of bacterial motility
Terrizzano	Carla Marina	Postdoc	Universität Bern	Geomorphology	Climate versus tectonic control of landscape evolution: an approach from alluvial fans in the Southern Central Andes
Ters	Kristyna	Postdoc	Universität Basel	Economics	Euro area sovereign credit risk contagion: Evidence from intraday data // Intraday credit risk responses to ECB announcements during the euro area sovereign debt crisis
Turck	Natacha	Postdoc	Université de Genève	Biochemistry	PROteomics BIOmarkers in Tears
Uozie	Anuli Christiana	Postdoc	ETH Zürich	Molecular Biology	Probing the roles of the polyol pathway in glucose metabolism and tumorigenesis - a systems biology approach

Name	First Name	Status	Host Institution	Discipline	Project Title
Varoqueaux	Frédérique	Postdoc	Université de Lausanne	Cellular Biology, Cytology	Metabolism and basis of neuronal communication in the emerging animal model <i>Trichoplax adhaerens</i>
Verhamme	Anne	Postdoc	Université de Genève	Astronomy, Astrophysics and Spatial Sciences	Spectral diagnostics to study the escape of ionizing photons and gas flows around galaxies
Vuillermot	Stephanie	Postdoc	ETH Zürich	Neurophysiology and Brain Research	Prenatal Infection and Schizophrenia: The Role of Presynaptic Dopamine Release.
Vuilleumier	Séverine	Postdoc	EPF Lausanne	Genetics	Recent Evolutionary History of HIV: worldwide pattern of introgression and the genetic compartmentalization hypothesis
Wernli	Martina	Postdoc	Université de Neuchâtel	German and English languages and literature	Feder lesen. Eine Literaturgeschichte des Gänsekiels von der Frühen Neuzeit bis ins 19. Jhd.
Zimmermann	Dorothe	Doctoral candidate	Universität Zürich	History in general	Antikommunismus vor dem Kalten Krieg. Der Schweizerische Vaterländische Verband, 1930-1948
Zmajkovicova	Katarina	Postdoc	Universität Basel	Molecular Biology	PI3K and DNA repair – point of convergence?

MHV: call for applications 2013 (39 awarded grants)

Name	First Name	Status	Host Institution	Discipline	Project Title
Aboulafia Brakha	Tatiana	Doctoral candidate	Université de Genève	Psychology	Assessment and treatment of emotional disorders in brain-damaged patients and their caregivers
Amaro Meyer	Ana Catarina	Postdoc	Universität Basel	Cellular Biology, Cytology	Bipartite approach to elucidate key structures involved in chromosome segregation
Biswas	Soma	Postdoc	EPF Lausanne	Biophysics	Investigation of the nature of sacrificial bond, hidden length mechanisms and its role in the fracture toughness of bone
Bolinger	Beatrice	Postdoc	Universität Basel	Immunology, Immunopathology	Analyzing the cellular mechanism of allograft rejection - role of coronin 1-dependent naive T cells.
Bouvel	Mathilde	Postdoc	Universität Zürich	Mathematics	Permutation classes: from structure to combinatorial properties

Name	First Name	Status	Host Institution	Discipline	Project Title
Chlench-Priber	Kathrin	Postdoc	Universität Bern	German and English languages and literature	Johann von Neumarkt und die deutschsprachige Privatgebetbuchkultur des Spätmittelalters
Davidovici	Irina	Postdoc	ETH Zürich	Architecture and Social urban science	Between autonomy and integration. Housing estates and the European city, 1865–2000
de Julien de Zelicourt	Diane	Postdoc	Universität Zürich	Other disciplines of Engineering Sciences	Understanding cerebrospinal fluid dynamics in the optic nerve subarachnoid space
Demarsy	Emilie	Postdoc	Université de Neuchâtel	Molecular Biology	Chloroplasts biogenesis and influence of the light environment
Dorfman	Susannah	Postdoc	EPF Lausanne	Geophysics	Carbon at Earth's core mantle boundary
Elsworth	Charlotte	Postdoc	Université de Genève	Neurology, Psychiatry	Physical activity, sleep and cognitive motor interference in stroke
Franc	Andrea	Postdoc	Universität Basel	Swiss history	Das Hilfe/Handels-Paradox: Die Reaktion der schweizerischen Dritt-Welt-Bewegung auf das Einsetzen der öffentlichen Entwicklungshilfe (1968-1983)
Gennari-Moser	Carine	Postdoc	Universität Bern	Pathophysiology	The Role of Renin-independent Extraadrenal Aldosterone Production in Kidney Disease
Giessmann	Andrea	Doctoral candidate	Université de Lausanne	Economics	Designing Business Models for Platform as a Service
Guenova	Emmanuella	Postdoc	Universität Zürich	Immunology, Immunopathology	Impact of malignant T cells on innate and adaptive immune responses in cutaneous T cell lymphoma: blurring boundaries between immunodeficiency and cancer
Hämmerli	Maria	Doctoral candidate	Université de Fribourg	Religious sciences, Theology	L'intégration des minorités religieuses suppose-t-elle leur sécularisation? Le cas des communautés orthodoxes en Suisse
Jardon Martinez	Lucia	Doctoral candidate	Universität Zürich	Political science	Diffusion of Immigrant Integration Policies in Switzerland
Jecklin-Tischhauser	Ursina	Doctoral candidate	Universität Zürich	Archaeology	Die Kirchenanlage Sogn Murezi in Tomils (GR) - kirchliches und herrschaftliches Zentrum im frühmittelalterlichen Churrätien

Name	First Name	Status	Host Institution	Discipline	Project Title
Kluwick Kälin	Ursula	Postdoc	Universität Bern	German and English languages and literature	Fictions of Fluctuation: Water in the Victorian Age
Knapp	Evelyne	Postdoc	Zürcher Hochschule für Angewandte Wissenschaften ZHAW	Microelectronics. Optoelectronics	Numerische Simulation organischer Tandem-OLEDs und Solarzellen
Lauper	Elisabeth	Doctoral candidate	Universität Bern	Psychology	Reducing road-traffic noise by behavior change among motorists
Lee	Shin Jae	Postdoc	ETH Zürich	Neurophysiology and Brain Research	Glucagon-like peptide-1 receptor signaling in the gut-brain axis implicated in obesity and diabetes
Lemoine	Mélissa	Postdoc	Universität Zürich	Ecology	Neutral genetic differentiation along an altitudinal gradient in <i>Ixodes ricinus</i> : Identifying biotic and abiotic factors which lead to reproductive isolation of tick populations
Ling	Bonny	Postdoc	Universität Zürich	Legal sciences	Slavery and Contemporary Forms of Exploitation in Modern China
Maciejewska-Rodrigues	Hanna	Postdoc	ETH Zürich	Molecular Biology	Genome-scale engineering of <i>Escherichia coli</i> for maximizing polyketide production
Maire Fivaz	Vania	Doctoral candidate	Université de Neuchâtel	Romance languages and literature	Javier Tomeo y las Vanguardias europeas del siglo XX: confluencias estéticas
Marchal-Crespo	Laura	Postdoc	ETH Zürich	Other disciplines of Engineering Sciences	Maximizing Effectiveness of Robot-aided Gait Rehabilitation
Mattout	Anna	Postdoc	FMI Basel	Genetics	The role of Lsm proteins in heterochromatic gene silencing
Ossola	Elisa	Postdoc	Università della Svizzera italiana	Economics	An Econometric Analysis of Linear Factor Models using Large Dimensional Datasets of Individual Assets
Pelttari	Karoliina	Postdoc	Universität Basel	Cellular Biology, Cytology	Molecular and phenotypic characterisation of human pre-osteoarthritic chondrocytes from post-traumatic joints
Prandini	Elisa	Postdoc	Université de Genève	Astronomy, Astrophysics and Spatial Sciences	Imaging Cosmic Emitters of Very High Energy Gamma Rays
Restivo	Gaetana	Postdoc	Universität Zürich	Molecular Biology	Genes involved in the regulation of melanoma cell invasion

Name	First Name	Status	Host Institution	Discipline	Project Title
Royo	Helene	Postdoc	FMI Basel	Molecular Biology	Understanding the mechanism of nucleosome retention in mouse sperm
Sala	Ana	Postdoc	Universität Zürich	Other disciplines of Engineering Sciences	Guiding vascular sprouting by engineering the three dimensional endothelial microenvironment
Sánchez Abchi	Verónica Soledad	Postdoc	Université de Fribourg	Applied linguistics	L'apprentissage de l'espagnol comme langue minoritaire dans les contextes suisse-allemand et romand : Une étude sur les compétences d'écriture des enfants aux racines hispanophones.
Scandella-Grabher	Elke	Postdoc	Kantonsspital St. Gallen	Immunology, Immunopathology	Impact of intestinal stromal cells on homeostasis and function of innate lymphoid cells
Sperlich	Yvonne	Postdoc	Université de Genève	Economics	Analysis of trade potentials of BRICS states and the impacts on their respective regional integration partners
Studer	Manuela	Postdoc	Université de Fribourg	Visual arts and Art history	Das ikonographische Programm der byzantinischen Kirchen und die Liturgie: Untersuchungen zum Christos Anapeson
Trancik Petitpierre	Viera	Doctoral candidate	Universität Bern	Archaeology	Ernährung, Herkunft und Gesundheitszustand zweier frühmittelalterlichen Bevölkerungsgruppen aus Reigoldswil (BL)

MHV: call for applications 2012 (37 awarded grants)

Name	First Name	Status	Host Institution	Discipline	Project Title
Ayaz	Asli	Postdoc	Universität Zürich	Neurophysiology and Brain Research	Two-photon imaging of state-dependent processing in mouse neocortex in a virtual tactile environment
Barrabés	Noelia	Postdoc	Université de Genève	Physical Chemistry	Chiral gold nanoparticles for enantioselective hydrogenation of carbonyl compounds
Beer	Beate	Postdoc	Universität Zürich	Other languages and literature	Narratologie und Genealogie des Tischgesprächs: Anekdoten und Erzählungen der zweiten Sophistik bei Aulus Gellius

Name	First Name	Status	Host Institution	Discipline	Project Title
Blaser-Meier	Susanna	Doctoral candidate	Universität Zürich	Visual arts and Art history	Das Grabmal der Königin. Funktion und Typologie mittelalterlicher figürlicher Frauengrabmäler (13.-15. Jahrhundert)
Buchs	Helen	Doctoral candidate	Universität Zürich	Sociology	Die Bedeutung des individuellen Stellenangebots für eine ausbildungsadäquate Beschäftigung beim Übergang von der Berufsbildung in den Arbeitsmarkt und für deren Folgen
Castets	Perrine	Postdoc	Universität Basel	Molecular Biology	Unravelling the molecular mechanisms leading to muscle wasting: Role(s) of mTORC1 and FoxO3 pathways in autophagy in skeletal muscle
Dalle Vacche	Sara	Postdoc	EPF Lausanne	Material Sciences	Interfacial interactions in fluorinated polymer nanocomposites
Gosal	Mary	Postdoc	Université de Genève	Other disciplines of Physics	Laser filamentation for probing and controlling atmospheric processes
Gujer	Cornelia	Postdoc	Universität Zürich	Immunology, Immunopathology	DC maturation and DC mediated immune control during EBV infection
Haessler	Ulrike	Postdoc	ETH Zürich	Immunology, Immunopathology	Utilizing systems immunology approaches in the development of vaccines and immunodiagnostics against bacterial pathogens
Hidalgo-Weber	Olga	Doctoral candidate	Université de Genève	History in general	Dimensions transnationales des politiques sociales britanniques: le rôle de la Grande-Bretagne au sein des organisations internationales, 1919-1945
Isengard	Bettina	Postdoc	Universität Zürich	Sociology	Die räumliche und soziale Nähe zwischen Eltern und ihren erwachsenen Kindern: ein europäischer Vergleich
Kaiser	Anelis	Postdoc	Universität Bern	Psychology	Multi-Scale Battery of Femaleness and Maleness to Examine Language Processing and its Plasticity in Structure and Function of the Brain
Kenzelmann Broz	Daniela	Postdoc	Universität Basel	Experimental Cancer Research	Identification of mutant p53-regulated genes important for invasion and metastasis
Kolmer	Agnes	Postdoc	Universität Zürich	German and English languages and literature	Wortakzent im Schweizerdeutschen: typologische Einordnung und dialektale Variation

Name	First Name	Status	Host Institution	Discipline	Project Title
Kopel	Rotem	Doctoral candidate	Université de Genève	Electrical Engineering	Develop novel method for rtfMRI using brain connectivity
Koppenleitner	Vera Fionie	Doctoral candidate	Universität Bern	Visual arts and Art history	Stadtbrand und Vulkanausbruch. Traditionen und Funktionen des Katastrophenbildes im 17. Jahrhundert
Luiselli	Michela	Postdoc	Universität Basel	Archaeology	Der Kult der Göttin Mut im Alten Ägypten (18. - 25. Dynastie)
Meyer-Schaller	Nathalie	Postdoc	Universität Basel	Experimental Cancer Research	Transcriptional and Epigenetic Regulation of EMT
Moret Petrini	Sylvie	Doctoral candidate	Université de Lausanne	History in general	Pratiques éducatives familiales et écriture du for privé en Suisse romande (1750-1820)
Noailly	Joelle	Postdoc	IHEID Genève	Economics	The role of multinational firms in the diffusion of green technologies to developing countries
Norgrove	Lindsey	Postdoc	Universität Basel	Agricultural and Forestry Sciences	Slash-and-mulch agrisilviculture as an alternative to slash-and-burn: a long-term assessment of soil and vegetation dynamics in West and Central Africa
Pasche Villars	Virginie	Doctoral candidate	Université de Neuchâtel	Romance languages and literature	Scepticisme et réalisme chez Isabelle de Charrière (1740-1805): enjeux philosophiques, esthétiques et politiques d'une poétique du vrai
Peleg-Raibstein	Daria	Postdoc	ETH Zürich	Embryology, Developmental Biology	Effects of maternal overnutrition on addictive behavior in the offspring
Radiguet	Mathilde	Postdoc	EPF Lausanne	Geophysics	Numerical modeling of slow slip: from laboratory experiments to natural faults
Ronchi	Francesca	Postdoc	Universität Bern	Immunology, Immunopathology	Microbiota-mediated fine-tuning of the threshold of intestinal inflammasome activation in host-microbial mutualism
Schenk Christine	Giulia	Doctoral candidate	Université de Genève	Social geography and ecology	Reconciling Islamic values with reconstruction efforts: the role of the Sharia in population administration in Aceh, Indonesia
Schmidt	Nicole	Postdoc	Université de Genève	Gynaecology	Migrant faith-based communities as partners in improving reproductive health? - Exploring new approaches to reach late-or non-attendees

Name	First Name	Status	Host Institution	Discipline	Project Title
Schneider Gasser	Edith Marianne	Postdoc	Universität Zürich	Neurophysiology and Brain Research	Neuronal Erythropoietin involvement in mice postnatal gliogenesis, neurogenesis and vascularization
Sidorova	Olga	Postdoc	ETH Zürich	Climatology, Atmospheric Chemistry, Aeronomy	Key Mechanisms of Metabolic Changes in Mountain Pine and Larch under Drought in the Swiss National Park
Tiefenbach	Emma	Postdoc	Université de Genève	Philosophy	Understanding the Nature of Economic Values
Tohsophon	Thanaporn	Postdoc	EPF Lausanne	Material Sciences	Novel transparent conductive oxide materials for macro electronics
Vallecorsa	Sofia	Postdoc	Université de Genève	Astronomy, Astrophysics and Spatial Sciences	A search for Dark Matter with the ATLAS detector at CERN and the IceCube detector at the South Pole
Wegener	Susanne	Postdoc	Universität Zürich	Neurophysiology and Brain Research	The substrate of post-stroke cognitive impairment
Willecke	Maria	Postdoc	Universität Zürich	Molecular Biology	Identification and functional characterization of new cancer relevant genes in a Drosophila tumor model
Wölnerhanssen	Bettina	Postdoc	Universität Basel	Clinical Nutritional Research	Effects of Metabolic Surgery on the Central Satiety System and Gastrointestinal Motility
Wyss	Natascha	Doctoral candidate	Universität Bern	Cancer	Cancer in HIV-infected populations: studies of incidence, prognosis and oncovirus seroprevalence

MHV: call for Applications 2011 (32 Grants)

Name	First Name	Status	Host Institution	Discipline	Project Title
Bodnarchuk	Maryna	Postdoc	ETH Zürich	Inorganic Chemistry	Hierarchical functional nanomaterials by self-assembly of inorganic nanocrystals and clusters
Carnesecchi Acker	Stéphanie	Postdoc	Université de Genève	Pathophysiology	Role of Oxidant in the Pathogenesis of Lung Emphysema and Characterization of Cell Type-Specific Signalling Pathways
Conesa	Sonia	Postdoc	EPF Lausanne	Material Sciences	Innovative Hybrid Materials at the Nanoscale
Corpet	Armelle	Postdoc	Universität Zürich	Experimental Cancer Research	IRIF versus SDF: role of the ?H2A.X chromatin domain in oncogene-induced cellular senescence

Name	First Name	Status	Host Institution	Discipline	Project Title
Coste	Alix	Postdoc	Université de Lausanne	Experimental Microbiology	Genome wide analysis of the role of transcription factors of <i>Candida albicans</i> in the survival in host conditions
Cronin	Therese	Postdoc	FMI Basel	Molecular Biology	Role of miRNAs in the retinal bipolar cell post-synaptic response
Deiglmayr	Anne	Postdoc	ETH Zürich	Psychology	Learning through collaborative comparison
Do	Thuy Hang	Doctoral candidate	Universität St. Gallen	Science of management	Strategic Management of Innovation in SMEs
Gervais	Claire	Postdoc	PSI Villigen	Physical Chemistry	The Role of Moisture in the Formation and Transport of Degradation Products in late 19th / early 20th Century Paintings
Haines	Nicola	Postdoc	ETH Zürich	Genetics	Systematic Isolation of Glycosyltransferases in <i>Drosophila melanogaster</i> Using The Toxicity of Fungal Lectins
Huang	Ying-Yu	Postdoc	Universität Zürich	Neurology, Psychiatry	Study of infantile nystagmus syndrome: development of the ocular motor system, disease mechanism and clinical applications
Imbach	Jessica Elizabeth	Doctoral candidate	Universität Zürich	Other languages and literature	Fantasmizing ghosts: Gendered memories and traumatic specters in post-Mao fiction (working title)
Khawari	Aliya	Doctoral candidate	Universität Zürich	Political science	The Political Economy of Microfinance: Case studies of MFIs in India and Pakistan
Kündig	Andréa	Doctoral candidate	IHEID Genève	Sociology	Le visible et l'invisible: l'influence du mouvement naxalite sur les mouvements sociaux Adivasi en Orissa
Lehmann Imfeld	Zoe Christina	Doctoral candidate	Universität Bern	German and English languages and literature	Towards a theology of the ghost story
