

## Confirmation of the higher education institution

**Introductory remarks:** *The SNSF awards SNSF Eccellenza Professorial Fellowships to highly qualified young researchers who are aiming for a permanent professorship. This scheme enables them to achieve their goal as leaders of a generously funded research project and team at a higher education institution in Switzerland.*

*These fellowships are aimed at excellent researchers in all disciplines who have a doctorate or equivalent qualification and who are pursuing an academic career, but have not yet won an assistant professorship (according to Article 4 paragraph 1 of the SNSF Eccellenza Professorial Fellowships Regulations).*

*They can request their own salary at the local rates applicable to assistant professors as well as project funds of up to 1,000,000 Swiss francs for five years.*

**The written confirmation of the higher education institution consists of two separate letters:**

1. Detailed confirmation of the higher education institution signed by the head of the institute/department.
2. General confirmation of the vice rectorate for research (or equivalent).

The statement of commitment of the Swiss higher education institution refers to the obligations which are stated in the Eccellenza regulations, in particular art. 7.

**The directorate of the institute or department should forward the detailed confirmation of the higher education institution (point 1) to the vice-rectorate for research in order to receive the general confirmation (point 2).**

**Then, the head of the institute or department at the higher education institution should send both confirmations to the applicant for a timely submission of the application.**

Both confirmations must follow the text template provided below and be written on paper using the official letterhead of the higher education institution. They must be added to the application and will only be regarded as complete if all the points relevant to the application are addressed.
