_Biology and medicine F 33.5
_Sinergia and interdisciplinary projects F 33.1

How can the SNSF support your research?

Are you interested in a fellowship for a stay abroad or in obtaining funding for your research project? Would you like to become independent and form your own team? The Swiss National Science Foundation (SNSF) is hosting various stands and holding presentations where you can learn more about our funding schemes.

The Research Day is aimed at all researchers, from doctoral candidates to professors, and is held in English. Attendance is free. Registration is not required.
